09:30 - 09:50	Keynote 1 & Q&A TBC
09:50 - 10:40	Panel 1 - Governance, strategy, risk management, and metrics and targets 237 companies with market capitalisation of \$3.6trillion support the TCFD recommendations. Introducing these voluntary climate-related financial disclosures will mean greater transparency and information for investors to measure and respond to escalating climate risks. By assessing, mitigating and managing climate risks, businesses can promote financial stability, improve their resilience and capture opportunities. In the transition to a low-carbon economy what are the next steps needed to bring climate-related disclosures into the mainstream of financial reporting and into the heart of corporate governance? Patrick Arber , Senior Analyst, Global Public Policy and Sustainability, Aviva Investors Tanveer Hussain , Head of Peer Supervision and Risks Division, PRA, Bank of England Russell Picot , Chair, Trustee Board, HSBC Bank Pension Trust (UK) Limited Mark Lewis , MD, Head of European Utilities Equity Research, Barclays PLC Moderator: Jessica Fries , Executive Chairman, The Prince's Accounting for Sustainability (A4S) Project
